3. Altro Whiterock Digiclad™ (Custom)

Environmental Excellence Training & Development Ltd

Altro products promote cleaning best practice

Issue

The training centre for Environmental Excellence Training and Development Ltd is designed to deliver and assess a range of educational programmes for cleaning and environmental science. Managing Director, Delia Cannings felt that after 10 years, it was due a refurbishment: “it was time for a change, even though the floors were in as good a condition the day they were taken up as they were when put down.”

Approach

Delia wanted to create a homely comfortable environment, with importance placed on biophilic design and bringing the walls to life. The centre contains a range of real-life settings with fixtures and fittings including a kitchen, bathroom, bedroom, storage room, boardroom and offices. All the spaces needed to be easily maintained and promote wellbeing while meeting all technical requirements for durability, safety and hygiene.

Solution

Altro Ensemble modular flooring laid in a herringbone pattern was the perfect choice for the boardroom. Quick and easy to install, Altro Ensemble has an acoustic backing, provides comfort underfoot, and has a matt textured finish for a realistic look.

Altro Whiterock wall designs and Altro Whiterock Chameleon brought life to the walls especially in Delia’s office with a lilac and green colour scheme. Altro Whiterock Digiclad (Custom) has created a design that pops with bold and colourful floral prints.

> “With Altro’s combination of caring attitudes, expertise, and technical ability plus a fabulous range of colour and cleanability, the environment is going to be perfect.”
