Altro provides safe floor for
busy commercial kitchen

“Through a strong recommendation from our kitchen appliance supplier we chose Altro’s Stronghold 30 safety flooring in colour Dolphin for our new kitchen. The result has been fantastic.”

Jonathon Brown,
General Manager, Edgewater-Lake Wanaka

Altro provides safe floor for busy commercial kitchen

Issue

Edgewater Lake Wanaka is a hotel, conference and wedding venue on the shores of the beautiful Lake Wanaka in New Zealand. When they needed to refurbish and expand their busy commercial kitchen they wanted a flooring solution that was durable, easy to clean, attractive and safe.

“Our busy commercial kitchen needed a complete overhaul. The existing flooring had lost it’s non-slip properties and had become slippery. We were using rubber mats to assist with slip resistance but these were proving to be a trip hazard in themselves. We needed to remove the existing flooring and replace it with a long lasting, easy to clean and safe new flooring,” said Jonathon Brown, General Manager, Edgewater-Lake Wanaka.

Approach

Altro Stronghold 30 came highly recommended by their commercial kitchen appliance provider as the best safety flooring solution for them.

Jonathon continued: “It is also proving to be extremely easy to clean and the lifetime slip-resistance guarantee provides me with the assurance that my staff and suppliers will remain safe at all times. For these reasons, I would strongly recommend that you consider using Altro Stronghold 30 on your commercial kitchen floors.”

Solution

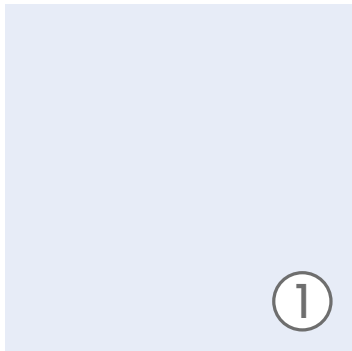

Water underfoot is treacherous enough – add grease, oils and fats, and you’ve got a dangerous environment. So, for commercial kitchens, canteens, food preparation and service areas, it’s essential to select flooring that will help catering staff do their job safely.

Altro Stronghold 30 achieves Altro’s highest rating for slip resistance (PTV ≥55, R12) and is designed to minimise risk in wet and greasy conditions for the lifetime of the flooring.

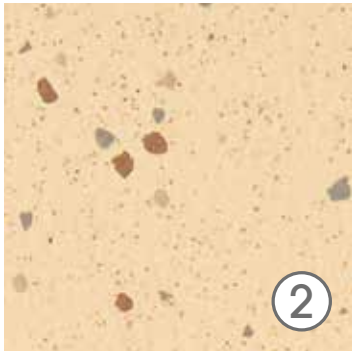

“The 3mm thickness of Altro Stronghold 30 is not only proving to be extremely durable but it is much more comfortable and less fatiguing on our staff who are working on it all day. It is also proving to be extremely easy to clean and the lifetime slip resistance guarantee provides me with the assurance that my staff and suppliers will remain safe at all times.”

Jonathon Brown,
General Manager, Edgewater Lake Wanaka

Looks great with:

1. Altro Whiterock Satins™
2. Altro Reliance™ 25
3. Altro Whiterock™ hygienic doorsets

Altro Stronghold 30 achieves Altro’s highest rating for slip resistance (PTV ≥55, R12) and helps reduce staff fatigue, thanks to its 3mm thickness which provides noise reduction and comfort underfoot. Altro Stronghold, combined with Altro Whiterock hygienic wall cladding, provides an impervious, easy to clean and safe solution for kitchen environments that is Hazard Analysis and Critical Control Points (HACCP) approved and meets HSE standards.
