Altro Tegulis

For a sophisticated space, create your own style with ease. Altro Tegulis is an innovative wall solution available in an extensive color and design palette. With a chic look and feel of tile, the custom-etched grout lines offer a hygienic solution eliminating scrubbing and repair issues. This easy-to-install system is available in interlocking and straight-edge formats with a variety of tile sizes capable of adapting to different designs.

Unlike traditional porous grout used in ceramic tile installations, the grout lines embedded into Altro Tegulis' surface are impervious to moisture. Using our half-lap installation method combined with our sanitary sealant, Altro Tegulis prevents water and bacteria from penetrating below the surface, allowing for thorough cleaning and disinfecting. This provides an authentic tiled visual, without any of the unhygienic drawbacks.

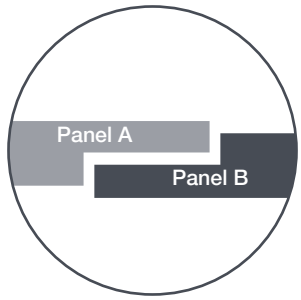
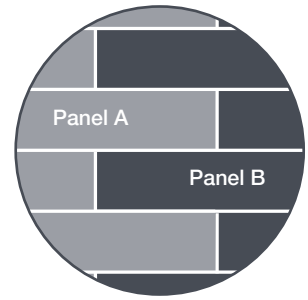
4 Determine your installation method.

Panels can be installed in three ways. Read below to find out which method may be right for you.



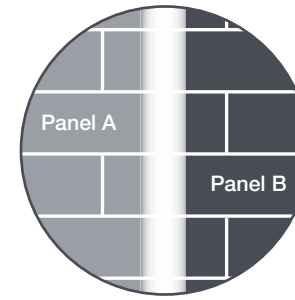
Half-lap

Panel edges are beveled to fit on top of one another. Creating a smooth, water-resistant joint



Interlocking

Tiles protrude from each panel to form an easy, puzzle-like interlock for use in dry areas



Two-part joint strip

A color matched joint strip joins two straight-edge panels with ease

5 Place your order.

Our sales and customer care team will work with you to get the pattern and color ordered properly. While this is a made-to-order product, we still can offer quick turnaround times of 4 - 6 weeks from time of order.

Pre-made samples of Altro Tegulis are available. We suggest you order one along with a sample of the color of your choice.
