

Installation techniques and detailing

Self-coved and welded to wall mounted sheet PVC

In locations where the sheet vinyl flooring needs to achieve a water tight hygienic seal with the wall mounted sheet vinyl. The Altro flooring should be covered over a CF38R / CF20R radius cove former, fixed at the junction of the wall and floor, up to a minimum height of 100mm and finished by cutting in,

grooving and hot welding to the sheet vinyl wall finish. The cove former and Altro flooring used in this section must be adhered with a suitable contact adhesive. All mitres and joints within the coving must be hot welded.
